

Stories on SUSTAINABILITY

Greetings from our first Stories on Sustainability (SOS) Newsletter! Every quarterly, we will be bringing you stories, news and events on the topic of Sustainability from Malaysia as well as the ASEAN region.

This month's story

Sustaining Sustainability?

We have been involved in the business of sustainability for more than ten years. What started off as a participation in a four-year EU-funded project on biomass utilisation in Malaysia snowballed into undertaking GHG emissions assessment projects for oil palm plantation companies, public-listed corporations as well as joint projects with universities and like-minded small and medium enterprises.
